## **Unique Features of Cera 30 Printer:**

- Designed and made in India
- Use of high quality 80/20 3030 aluminum extrusion
- Touch LCD and SD card
- Lead screw extrusion with Nema 17 Motor
- 200 ml piston volume
- 600 gms Material loading capacity
- Moulded plastic canister
- Can store materials for longer period
- Open source slicing engine and software
- Robust and stable delta build structure

## **DNE YEAR WARRANTY**

## **Machine Specifications:**

Build Volume: 300mm Dia and 470mm Height

Printing Speed: 60mm/sec

Nozzle diameter: 2.5, 3.0, 4.0 mm

Slicing software: CURA, Simplify3D

Mode of printing: SD card, USB

Bed Material: Wood
Printing Speed Adjustment: Yes
Pressure control system: Yes
Printing Pressure: 6-9 bar
Offline printing: Supported
Operation screen: Touch screen

Main control board: MAKER BASE control board

Operating system: XP, Vista, Win7, Win8, LINUX, IOS

Input power: 220V 1.5A Output

Power: 24V 15A
